

Sanya Bansal . Jarvis Consulting

Business and data analytics professional with a Post Graduate Diploma in Business Information Technology from Seneca College. Currently working at Jarvis Consulting Group, contributing to technical and analytics-focused projects using SQL and Python. Previously worked as a Technical Sales Analyst at Larsen & Toubro, supporting data analysis and business reporting. Passionate about Business Systems Analyst roles as they combine problem-solving, technology, and business understanding to improve systems and enable better, data-driven decision-making.

Skills

Proficient: RDBMS/SQL, Python (Pandas, Numpy), Agile/Scrum, Excel, Git

Competent: PowerBI, Data Visualization, Requirements Documentation (BRDs, SRDs), Linux/Bash, Data Modeling

Familiar: Google Cloud Platform, Docker, Matplotlib, Power Query, Pyspark

Jarvis Projects

Project source code: https://github.com/jarviscanada/jarvis_data_eng_demo

Cluster Monitor [GitHub]: Built a simple Linux server monitoring system that collects host hardware details and tracks CPU and memory usage over time. Implemented Bash scripts where one script runs once to store static host information and another runs periodically to capture live usage metrics. Stored all data in a PostgreSQL database running inside Docker, enabling clean setup and easy management. Demonstrated practical integration of Linux, Bash scripting, Docker, Git, and PostgreSQL to deliver a basic monitoring solution.”

RDBMS and SQL [GitHub]: Designed and implemented a relational database using SQL and RDBMS principles based on a provided ERD. Created normalized tables for members, bookings, and facilities using SQL DDL with appropriate primary and foreign key constraints. Developed SQL queries to extract meaningful insights using joins, aggregations, filters, and window functions. Applied Git and GitHub for version control and change tracking.

Python Data Analytics [GitHub]: Built a customer analytics PoC leveraging Python, Pandas, and PostgreSQL to perform RFM segmentation, revenue trend analysis, and cancellation pattern detection for targeted marketing optimization.

BSA Fundamentals [GitHub]: Authored a Business Requirements Document (BRD) for a Linux Cluster Monitoring project and conducted stakeholder elicitation sessions to gather requirements, translating them into a detailed Software Requirements Document (SRD) for a stock trading application.

Highlighted Projects

Data Professional Survey [GitHub]: Designed and developed an interactive Power BI dashboard to analyze data from a Data Professional Survey. Transformed and cleaned the dataset using Power Query, and created visualizations highlighting key insights such as average salary by job title and professional satisfaction metrics to support data-driven insights into industry trends.

Professional Experiences

Business Systems Analyst, Jarvis (January, 2026 - Present): Analyzed business and system requirements for technical and data-focused projects in an Agile environment. Conducted stakeholder elicitation sessions and documented requirements through artifacts such as Business Requirements Documents (BRD) and Software Requirements Documents (SRD). Also worked with tools including SQL, Python, Linux, and Git while contributing to data analytics and system monitoring projects.

Technical Sales Analyst, Larsen & Tourbo (2019-2020): Supported sales operations by analyzing technical specifications, client requirements, and market data related to the companys products. Conducted retailer surveys to gather insights on product performance and market positioning. Cleaned and analyzed the collected data using Excel, created pivot tables to identify trends, and presented findings to stakeholders to support improvements in marketing strategies and business decision-making.

Education

Seneca College (2023-2024), Post Graduate Diploma, Information Technology

Punjab Engineering College (2016-2020), Bachelor of Technology, Electrical Engineering

Miscellaneous

- Certificates: Microsoft PowerBI Data Analyst Associate(PL-300)
- Languages: English, French (Intermediate - A2)
